(Per category there will be one winner; one first and one second runner up.)

### **Top Caribbean Crime Fighter**

To ensure a fair chance for officers from smaller forces versus officers from larger forces, the Top Caribbean Crime Fighter will not only be selected by the number of crimes detected by the nominated officers. The ratio between cases assigned to any officers and detected cases by these officers shall also be considered. Furthermore, the impact that the case(s) detected by an officer (incl. resulting convictions) had on general safety and security within the respective community (and by extension country and region) will be a main criterion for the judges on the panel.

- Contributions made by the nominated officers to the prevention and detection of crime and criminal activity will be judged.
- It will also be considered how improved and/or new techniques have been introduced and used in the prevention and detection of crime.

- Further consideration will be given to how the officer has contributed significantly to the success of his/her police force through unselfish devotion to duty.
